SILVER REPUBLICANS

Formulate an Address to the
Voters of the Country.

WHY THEY SUPPORT BRYAN.

The Statement Is the Result of a Several
Days' Conference Held by Senator Teller
and Associates, Who Bolted the St. Louis
Convention—All Opponents of the Gold
Standard Urged to Join Them.

DENVER, July 21.—Senator Teller and 11 of his associates who left the national Republican convention, last evening made public an address to the silver Republicans of the country, setting forth their views of the situation. The silver Republicans, congressmen and senators, have been in conference at Manitou for several days over this statement. In addition to those signing the address, Senator Pettigrew of South Dakota and Senator Cannon of Utah are declared to be in sympathy with it, although Senator Cannon was not present at the conference owing to business engagements in Boston. The address is as follows:

We deem it fitting that we who have heretofore affiliated with the national Republican party and who have rejected the financial plank of the platform adopted at St. Louis, and refused to support the nominees of the convention, should state our position in the present campaign and give briefly our reasons in support thereof.

When certain delegates to the national Republican convention repudiated the financial plank of the platform and withdrew from the convention, we determined that we would give our support to such candidates as should appear most willing and capable of aiding in the restoration of silver to its rightful place as standard money.

The Democratic party, in its Chicago convention, has taken a position in its platform so pronouncedly favorable to silver, and has nominated candidates of such unusual unquestionable convictions in favor of the bimetallic policy, and of such high personal character, that we have determined to give them our support. We support such candidates because they represent the great principle of bimetallism, which we believe to be the cause of humanity and civilization, and the paramount question now before the American people.

We therefore, announce that we shall by voice and vote support Messrs. Bryan and Sewall for president and vice president, and we appeal to all citizens, and especially to Republicans who feel as we do, that gold monometallism would be of lasting injury to the country, to act with us in securing their election.

The Democrats who believe in the gold standard are announcing their intention to support McKinley, or proposing to put a third candidate in the field for the avowed purpose of aiding Mr. McKinley's election. A great number of leading and influential Democratic journals have declared that they will support the Republican nominees. It is evident that there is to be a union of forces on the part of the advocates and supporters of the gold standard to elect Mr. McKinley and a congress favorable to him, which will support the financial policy outlined in the Republican platform.

To those who believe in bimetallism, which means the equal treatment of both gold and silver at the mints of the nation, there is but one course to pursue, and that is to unite all the silver forces and to oppose with all our might the candidate representing the policy which we believe is fraught with disaster to the nation and ruin to the people.

Gold monometallism means the shifting to gold alone, as primary money, of all the burdens of commerce and credit formerly borne by gold and silver, and as the world's stock of these metals has always been about equal in amount, it means the doubling of the burden upon gold. Doubling the burden upon gold means doubling the demand for the same, and doubling the demand of necessity doubles the value thereof. This gradual shifting to gold of all the burdens of both gold and silver has caused a gradual and steady increase in the value of every dollar redeemable in gold, and hence a gradual and steady decline in the value of every commodity that is measured by that dollar.

The Republicans and supporters of Mr. McKinley consented to the insertion in the St. Louis platform of the gold standard declaration thinly veneered by a declaration for bimetallism, "when the leading commercial nations of the world should consent," but until that consent was secured the gold standard must be maintained. It is well known that this consent can not be secured from Great Britain, and that such declaration for bimetallism means nothing, with this limitation on it. Mr. McKinley consented to the declaration for the gold standard in the platform, and in his recent speeches has accepted it, and has become the advocate thereof; he has shown by his speeches heretofore made that he understood the danger of the gold standard and the distress which would be inflicted upon the American people by its adoption, and yet he pledges the people to support and maintain that system, and fasten upon them all the evils of the financial system which he has heretofore repudiated if they will make him president. Whatever may have been his attitude on the money question in the past, he must inevitably hereafter support the same financial system that the present Democratic administration has, and, if elected, must continue the policy of Mr. Cleveland in the sale of bonds in time of peace. Hence, with the success of

Mr. McKinley we may look for a continued increase of the public debt and the sale of bonds to maintain the gold standard.

That the condition of the country is not satisfactory, all admit. The producers of wealth are not receiving fair and proper compensation for their labor, whether in field, factory or mine; enterprise has ceased; values are constantly declining; labor is unemployed; discontent and distress prevail to an extent never before known in the history of this country, and no reason can be found for such an unhappy condition save in a vicious monetary system. Those who profess to deplore the present financial condition and oppose the free coinage of silver are divided in opinion as to the present cause of the present condition.

Some declare that it is because we est of silver, in which all are interested, and thus make victory certain or endanger success by declining to do so.

The responsibility, he says, rests with him and he does not hesitate to say that he believes the rank and file of the Populists will desert their leaders on the issue if they refuse to accept this opportunity. He takes them to the top of the mountain and shows them the promised land of silver. He and his friends deny that any pledges are being made, but Senator Allen, whose proposition gives him great weight with Populistic councils, is proclaiming to his friends that if Mr. Bryan is selected, all who rally to his support, whether Democrats, Populists or Republicans, will be on an equal footing.

It is intimated that a selfish interest, perhaps, actuated the "middle-of-the-road" leaders from the south. They have been fusing with the Republicans there for local offices and for members of congress, and if Bryan and Sewall should be endorsed they would necessarily cut off their political allies.

The "middle-of-the-road" people suggest Vandervort of Nebraska and Burkett of Mississippi as a good ticket.

The Bryan people are closely organized for effective work. General Weaver is at the head of the steering committee, and they are laboring with all the incoming delegates. The main thing they have to contend with is the all-prevailing dread among the rank and file that they will be swallowed up by the Democracy. They declare they were first in the field with the cry for the restoration of silver. "The Democrats stole our thunder," said Ignatius Donnelly, "and now they want to bury us."

The convention is a peculiar political gathering. There is a total absence of brass bands and a scarcity of flags and bunting, but the lack of music and trappings does not dampen the ardor of the delegates. There is noise enough to satisfy any frequenter of conventions. They crowd the hotel corridors. All of them are debaters with strong convictions, and they take into their confidence all within the sound of their voices. The fact that few of the delegates are young is another noticeable feature of the assembling Populists. Most of the whiskers are dotted with gray, many of the delegates are far on to the sere and yellow, but they are full of fire and enthusiasm. It is not believed that over half the delegates are yet on the ground.

In case Bryan is nominated or endorsed, Chairman Jones has agreed that the Populists shall have two representatives in the national committee and the silverites one. The two southern suggested for vice president in the event of a compromise which would give the latter a place on the ticket to a Populist are Judge Walter Clark of North Carolina and Colonel Minnis of Tennessee. The difficulties in the way of accomplishing such a compromise, however, was generally recognized as almost insurmountable and this scheme was in measure abandoned. The indications that the compromise and Bryan factions were getting closer together continued and the general belief among the best informed on the inside was that the situation would soon clear and that the nomination of Bryan was reasonably certain.

INDIAN EDUCATION.

Annual Meeting of the Society at St. Paul
Is Largely Attended.

ST. PAUL, July 21.—The annual meeting of the National Indian Educational society has brought to this city between 300 and 400 teachers, supervisors, superintendents and other officials connected with the work of Indian education. The object of the convention, which will continue for four days in the representative chamber of the capitol, is to discuss the work and to make new plans for more effective efforts in the future. There are now about 22,000 scholars on the rolls of the Indian schools, and the government appropriations for the past year amount to \$2,000,000. The introduction of the field-matron system, under which a large number of specially fitted women are to be employed to make house-to-house visitations among the Indians, and by example and direction instruct the women in domestic economy, is to be brought up for consideration. The scheme is strongly endorsed by Hon. W. N. Natmann of Washington, the superintendent of Indian education, and his supervisors.

LOGANSPORT, Ind., July 21.—The Indianapolis, Logansport and Chicago Railway company has filed a mortgage in this county in favor of the Continental Trust company of New York. The company has issued sixteen hundred 5 per cent gold bond of \$1,000 each, dated July 1, 1896, to run until 1926. The money is to be applied to the construction of the line, from the limits of Indianapolis to Logansport, via Sheridan, Kempton, Russiaville and Young America. Secretary Quincy Meyers stated that work would be commenced shortly, but he could not give the exact time.

HORNY-HANDED SONS

Hard at Work on the Problem
of Government.

MANY FACTIONS DEVELOPED.

The Endorsement of Bryan and Sewall
Appears to Be Reasonably Certain, Al-
though the Southern Populists, Formerly
Acting With Republicans, Are Hold-
ing Out Strongly Against It.

ST. LOUIS, July 21.—The Populist situation does not crystallize. The leaders are at war over the question of endorsing or nominating Bryan. Some, like ex-Governor Llewelling, Senator Allen of Nebraska, General John B. Weaver of Iowa, who was the Populist candidate for president in 1892; Captain Reuben Kolb of Alabama, who claims he was twice defrauded of the governorship of his state; the Hon. Tom Patterson and Governor Waite of Colorado are earnestly striving for an endorsement of the Chicago ticket; Chairman Taubeneck, Ignatius Donnelly of Minnesota, Senator Butler of North Carolina, ex-Governor Buchanan of Tennessee and General Coxey of Ohio want to endorse Bryan under terms laid down by them, while "Cyclone" Davis of Texas, Paul Vandervort of Nebraska, Colonel Frank Burkett of Mississippi and others want to keep the middle of the road and nominate an independent ticket on an independent platform.

Each faction asserts that it desires to preserve the autonomy of the party or organization and its way is the way. Shipwrecked Populists and a bolt seem inevitable, no matter what the ultimate outcome is. The Bryan supporters claim to be the majority. They are well organized. Their leaders are shrewd and sagacious—many of them are experienced politicians—in addition to this, they have the open and active support of the silver party leaders, whose convention is likely to be simply a Bryan ratification meeting, and of Senator Jones, chairman of the Democratic national committee, who is here with his lieutenants, striving to this end. Their strength spreads over the entire country west of the Missouri, where the cause of silver is paramount.

Many of the delegates from this section, like Llewelling and Patterson, declare that if Bryan is not nominated or endorsed here, nine-tenths of the Populists will support him and the identity of the Populist party in the west will be destroyed.

The "middle-of-the-road" Populists are mostly from the south, where, for several years they say, it has been war to the knife and knife to the hilt in their battle with the Democracy and they have nailed their banner to the mast. They will neither surrender nor fusion. They have captured scattering votes in the west and quite a number from the Pacific coast.

In California they claim a majority of the delegation. They are extremely radical. Their headquarters at the Laclede are constantly filled with a pushing, noisy mass of people. The halls are placarded with mottoes and editorials from Populist papers demanding the repudiation of the Chicago ticket and several orators are usually talking to the crowd at the same time. An irredeemable currency and direct legislation are proclaimed to be the foundations of their faith. The initiative and referendum scheme, which is to originate all legislation with the people and refer it back to them for endorsement, is the keynote of their arch.

"We want to do away with the supreme court, that sits above the people," shouted one of their orators yesterday afternoon. "Then we will re-monetize silver; have government ownership of railroads and telegraphs; enact immigration and income laws, and crush the monopolies and trusts that have us by the throats."

These men will probably bolt in any event, although there are evidences of a split in some of the southern delegations like that of Texas, if they can be held in line, and those who desire a compromise do not receive concessions, which will ultimately bring them to the support of Bryan.

They may control a majority of the convention. The basis of representation is one delegate for each senator and representative and one for each 2,000 Populist votes east. Under this apportionment Texas and North Carolina have the largest delegations, 25 each, out of a total of about 1,300. In North Carolina, the fusion Populist and Republican votes are counted and these two delegations, it will be seen, comprise almost one-sixteenth of the convention. Georgia, who is also claimed by the "middle-of-the-road" faction, has 61. The largest of the Bryan delegations is Kansas with 92, Alabama, which is for Bryan, has 54 and Nebraska 51. The Bryan people claim on a preliminary canvass that takes no account of those delegations which have not yet put in an appearance, 433 votes. Their claims, however, are disputed in secret quarters.

LOGANSPORT, Ind., July 21.—The Indianapolis, Logansport and Chicago Railway company has filed a mortgage in this county in favor of the Continental Trust company of New York. The company has issued sixteen hundred 5 per cent gold bond of \$1,000 each, dated July 1, 1896, to run until 1926. The money is to be applied to the construction of the line, from the limits of Indianapolis to Logansport, via Sheridan, Kempton, Russiaville and Young America. Secretary Quincy Meyers stated that work would be commenced shortly, but he could not give the exact time.

are more or less impracticable as they would create complications which would be hard to straighten out before the campaign could begin.

Chairman Jones has indignantly rejected the proposition to throw Sewall overboard, and the Bryan supporters in the Populist party take a positive position in opposition to it, but it is thought that a division of electors in some of the states like North Carolina, Nebraska, Minnesota and Texas could be arranged by the state committees, which alone would have the power to enter into any agreement. Chairman Jones has conferred with such other leaders as have called on him and has pointed out very clearly that the battle is between McKinley and the gold standard and Bryan and the silver standard. He says that the Democrats do not want to endorse the Populists, but it rests with the latter to endorse Bryan in the interest of too much tariff, others that we have not enough, while the fact exists that every gold standard country in the world, whether it has a high or a low tariff, is now, and has been during recent years in the throes of a financial panic; and every free standard country, compared with its former condition, is enjoying an industrial development and degree of prosperity hitherto unknown in its history. While this differing in opinion, they unite in asserting that the gold standard must be maintained until foreign countries shall signify their willingness that the American people shall exercise the rights of freedom and create a financial system of their own. If we overlook the humiliation and degradation we must feel on account of such a declaration of financial dependency, we may well inquire when the consent of the leading commercial nations will be obtained.

With a nation equal in wealth and power to one-fourth of the world it is cowardly to say that we must ask the permission of Great Britain to establish and maintain a financial policy of our own. Believing as we do that a return of the monetary system especially recognized in the constitution and completely provided for by the law from 1792 to 1873 affords the only ground of hope for the betterment of the distressed condition of all the classes, except those who live by the increment that money loaned give those who loan it, we appeal to all classes to rally to the support of the only candidates whose success indicates any hope of relief.

NEW CRAFT.

Several New Ones to Be Built, Consisting
of Battleships and Torpedo Boats.

WASHINGTON, July 21.—Among the important matters that have necessitated a week's postponement of Secretary Herbert's voyage of inspection on the Dolphin are the plans for the three new battleships and 13 torpedo boats, the contracts for which, in accordance with the act of congress approved June 10, must be awarded within 120 days.

That limit will expire Oct. 8, and, at some time had to be allowed for canvassing and considering the proposals, the advertisements, which have already been issued, call for opening the bids on the torpedo boats Sept. 14, and on the battleships four days later.

Plans and specifications for the torpedo boats, which are to be of three classes, miking respectively 30, 22 1/2 and 20 knots, have already been prepared for eight bidders who have applied for them, and Chief Constructor Hitchborn is confident that the drawings and details of the battleships will be in possession of the only four establishments in the country capable of such big work not later than Aug. 1. The entire resources of the navy department have been strained to their utmost to expedite this work, and as soon as it is out of the way a general effort is to be made to hasten the completion of existing contracts, some of which are being time.

WITH A FULL FORCE

Work Starts Up at the Anderson Tin Plate
Mills.

ANDERSON, Ind., July 21.—The trouble at the National tin plate mills has been settled, and they started yesterday with a full force of men. The scale was signed Saturday afternoon, with a clause added which reads, "Subject to change." Just what this clause means would not be explained, either by the men or the management. This move gives employment to 350 men who have been idle, and at the same time settles a controversy that has been threatening trouble for some time past. The main change from the scale of last year is that it allows the men to make more boxes than they were formerly allowed to make for a day's work.

LI Hung Wide Awake.

LONDON, July 21.—The Paris correspondent of The Times, commenting upon the report that Li Hung Chang had visited the Credit Lyonnaise and had declared that China intended to secure a great loan, but that it desired to treat direct with the banks without intermediaries, suggests that it is possible that the chief aim of Li Hung Chang's tour is to get a loan on cheap terms.

Boy Sick Far From Home.

CHICAGO, July 21.—Robert Jackson, 17 years old, was found in a freight car on the docks of the Western Transit company. He appeared to be ill and was removed to the county hospital, where it was said he was suffering from typhoid fever. Jackson told the police that his home was in Petersburg, Va., and asked that his parents be notified of his illness.

LONDON, July 21.—In the house of lords today it was announced that the royal assent had been given to the diseases to animals bill and the agricultural land rating bill.

BIG WEEK FOR CHILlicothe.

Evangelist Wilson's Successful Revival at
Gallipolis Reports Four Thousand Con-

yer Injured—Other Ohio News.

CHILlicothe, O., July 21.—The celebration of the centennial of the settlement of the Scioto valley and Chillicothe by General Nathaniel and his party began Sunday night, and is now fairly launched. By proclamation of the mayor Sunday was set apart for centennial services in all the churches, services of thanksgiving for the blessings and favors the valley and city have received during the past century.

The Scioto valley remains as it has always been, the most fertile in the state, its residents are healthy and prosperous as a whole, and there has been abundant cause for thanksgiving. The sermons preached on the subject were able and eloquent, and the congregations throughout the city were unusually large.

The soloists and choruses for the series of grand concerts are most of them already here, and divisions of the Central Ohio Saengerbund are arriving on every train, for the saengerfest is to be held here this week also. Every train brings crowds to the city. The reception concert took place last evening, with addresses by prominent men. There will be concerts every night and Wednesday afternoon and Thursday evening. Postmaster General Wilson will speak. An eminent list of soloists has been secured. The art and loan exhibition is in first class shape, the committee having labored incessantly in arranging it.

WITH SKYROCKETS

Each Conversion Is Announced by Evan-
gelist Wilson.

GALLIPOLIS, O., July 21.—Syndicate Wilson, the great evangelist, is holding forth on the Galla fair grounds, and thousands of people are attending his meeting. Over 4,000 people have been converted in his meetings during the past 22 months, and he has held over 1,800 meetings without rest, which, he claims, is the greatest record ever made by an evangelist in this country. Wilson carries a brass band, canon and skyrockets with him. Whenever a person is converted a rocket is sent up. Wilson was at one time a complete physical wreck from the use of liquor and drugs, but reformed and has since been preaching the gospel with wonderful success. He is a Gallia county boy, and was at one time in the newspaper business.

Receiver Asked For.

LIMA, O., July 21.—James A. Hover, a holder of \$800 in stock in the Lima National bank, which closed in March, 1882, has brought suit in the United States court against B. C. Faurot, agent of the bank, for an accounting. Faurot was president of the bank and Hover now has a suit pending in the court here to recover from the officers and directors of the bank the amount of his losses. Hover claims Agent Faurot refuses to make a report, controls a majority of the stock and asks be enjoined from further management.

A Love Suicide.

CHAGRIN FALLS, O., July 21.—Leo Howard, 19, son of Art Howard, one of the most wealthy of Geauga county farmers, was found in the woods south of town yesterday dead, having committed suicide by blowing his head off with a shotgun. Despondency over being rejected by his inamorata was the cause.

Saloon Burned.

EAST LIVERPOOL, O., July 21.—Sunday morning fire destroyed the saloon of Fred Bruggeman of Wellsville with about \$1,500 worth of liquor. The building was owned by R. B. Porter and was insured for \$1,500. The stock was insured for \$1,000. It

The New York World, in its issue of July 10, 1896, says: "McKinley represents the plutocrat, the monopolist, the tyrant of the wage slave." And yet the World and some other "sound-money" Democratic organs talk like supporting him.

HERE's how the Cynthiana Democrat views the Chicago ticket:

The Democrat supports the full Democratic ticket as nominated at Chicago. This does not mean that the Democrat believes any more to-day than four months ago that the free and unlimited coinage of silver is right. But the Democratic party is bigger than any one single issue, and no one man, or set of men, can arrogate to themselves the right to override the will of the majority of the party. So, hurrah for Bryan and Sewall; down with McKinley and Hobart!

Now that the Democratic party has declared for the free and unlimited coinage of silver, the advocates of the single gold standard have suddenly discovered that it would be a great crime to remonetize silver, remarks the Portsmouth Times. They seem to have forgotten that since 1873, McKinley and Carlisle as well as a majority of Congress, have voted for silver. It was not a crime then. Abraham Lincoln and James G. Blaine favored free silver and, in their day, sounded the alarm against the encroachment of the gold power. It was no crime then. Now, the Republican party, or those who presume to lead it, declare it a crime to remonetize silver. Yet, at the same time they claim that silver should be remonetized under an international agreement. Now, if it is a crime for the United States to remonetize silver, would it be any the less a crime if other nations sanctioned it and joined in the work?

A Democrat, Not a Bolter.

Says the Bath County Democrat: "Hon. W. LaRue Thomas, of Maysville, was here Monday. He is a candidate for the Democratic nomination for Congress, and has many friends in Owingsville and Bath County who want to see him nominated. Mr. Thomas is a handsome and polished gentleman and made a fine impression on our people. He is a Democrat and not a bolter."

Suit has been filed by Mr. O. H. P. Thomas in the Mason Circuit Court against Mrs. Laura K. Thomas, widow of the late John N. Thomas, for \$10,000 damages. The plaintiff is executor of his brother's estate and the trouble grows out of a disagreement over an account involving about \$33. Mr. Thomas sent the bill to Mrs. Thomas, and it is alleged that in response she wrote a caustic note, in which she charged that he had wronged her out of \$10,000, called him an idiot, a liar and also charging him with being a trickster. The note was unsigned.

REV. DR. MOORE

Pays a High Compliment to William J. Bryan, the Democratic Candidate For President.

[Enquirer.]

Rev. Dr. David H. Moore, the learned editor of the Western Christian Advocate, speaks in the last issue of his paper, editorially, as follows upon the late Democratic convention and its Presidential candidate, Hon. William J. Bryan, of Nebraska:

"Pending the adoption of the platform, two of the greatest speeches of this or any other convention were made by Senator Hill, of New York, and Hon. William Jennings Bryan, of Nebraska—the one for the minority and the other for the majority. I am inclined to believe that Senator Hill is the ablest living Democrat, and that William Jennings Bryan is the most eloquent. As Garfield's speech nominating Blaine made himself President, so Bryan's speech supporting the platform of the majority made him its recognized and chivalrous champion, the logical candidate of the silver hosts.

"Senator Vest's speech naming Mr. Bland was masterly, in the first-class of such efforts. But Mr. Bland was not in the convention, and all his pioneer and unequalled devotion to silver counted nothing against the magnetic presence and resistless eloquence of the youngest man ever nominated for the Presidency.

"Mr. Bryan is as spotless as Major McKinley, and like him in generous social impulses. He is a Presbyterian. He is Western through and through. Thirty-five a man must be in order to be eligible to the Presidency. He is thirty-six. Wherever heard and on whatever subject he edifies and charms his hearers. Many a young man will rush to his standard whom an older candidate could not have influenced. And many another, it is to be hoped, though he may not follow him politically, will imitate his example in neither smoking, chewing, swearing nor drinking, and in using pure language."

Dr. Moore is a staunch champion of free coinage of silver at the ratio of 16 to 1, but on the other hand he favors protective tariff.

THE FINANCIAL QUESTION.

A Word For Those Democratic Papers That Have Read Themselves Out of the Party—Prophecies Fulfilled.

Editor Bulletin: We would like to inquire of those hitherto Democratic newspapers what they expect to gain by reading themselves out of the party on account of not being suited with the nominees at Chicago?

It has always been a cardinal principle among Democrats and in free countries that majorities rule, do they want to do away with this time-honored usage? Minorities rule in monarchies, but not in free and enlightened republics.

Do these men intend to sustain the Republican nominees? What will they gain by such a course, we should like to know. They forsake their own party for an idea, and go over to a party that stands ready at any time to enact such inhibitory measures as the Force bill.

Such a law as the Force bill would work more detriment than all the free coinage bills that could be enacted. Are they ready to cast their fortunes with such a party as this after fighting its principles for years?

Such papers as these are responsible for Kentucky having a Republican Governor, and we had a taste of what the Force law would have been in his action last winter in calling out the militia when he had a shadow of law for authority.

We have had silver on a parity with gold and its effects were not so dreadful that we can remember.

The party that is committed to such measures as the Force bill, &c., we have very much greater reason to stand in wholesome fear of.

What are the Republican pugnacious going to do about Mr. Blaine's famous utterance in regard to the demonetization of silver? In like they regarded him and justly as their ablest man. Surely they may not lightly esteem his opinions on so important a subject.

Col. Charles A. Marshall, late of this county, and one of the most honest, unselfish and far-seeing men of his time, as well as one of the most capable, gave it as his opinion at the time that silver was demonetized, that it would work disastrously to the general interests of the country, and particularly so to the agricultural interests; and we submit that facts sustain his opinion given more than twenty years since. Farm products of all kinds have fallen almost below the cost of production, while lands that formerly sold readily at from \$100 to \$25 per acre could not now be sold at more than \$75.

Col. Marshall's and Mr. Blaine's prophecies on the subject have been verified to the letter, although some of the wise men of to-day are setting up their opinions that over-production is the cause of such short and unremunerative prices and general agricultural distress.

This country should not desire to be governed in its financial policy by England, the most selfish and grasping power of all the Christian nations, yet in effect we are. The demonetization of silver by that country forced on India, it is claimed, has worked incalculable mischief to the latter's agricultural interests.

The Republican party is and always has been the rich man's party, and its financial policy has always been dictated by the money barons of the East and in direct opposition to the interests of the West and South, yet they are pleased to term this great movement for remonetization of silver to its rightful place under the Constitution a sectional one.

We acknowledge that it is to the interests of

that section to keep the government and the people just where it can squeeze the life out of either or both; but that it is not a policy that will promote the interests of the West and South is abundantly demonstrated by the present distressed conditions of these sections.

Silver is as much a money by the Constitution as gold, yet we hear of those who seem almost ready to relegate it among the base metals. Did you ever notice that wherever the two metals are mentioned in the Bible—the source of all wisdom—that silver invariably comes first, both in the old and new testaments?

In conclusion we assert that the demonetization of silver was one of the most outrageous acts ever foisted upon a free people, and was brought about in the direct interest of the few as against the interests of the great middle and producing classes.

HIGHLY ENJOYABLE

Was the Entertainment a Few Evenings Ago By the Wedonia Aid Society.

Last Wednesday evening a most enjoyable entertainment was given by the Wedonia Aid Society, for the laudable purpose of purchasing an encyclopedia for the benefit of their school.

The entertainment was under the management of Miss Anna L. Hord, and she, unaided and with inexperienced talent, arranged and put upon the stage a delightful program, consisting of recitations, tableaux, drills and the amusing comedy of "A Box of Monkeys," interspersed with music by the home orchestra and piano solos and duets by Misses Florence Robb and Nannie Willett.

The first number was a recitation of Longfellow's "Famine," with fine dramatic effect, by Miss Harriet Hord.

Maggie Kemper and Charlie Thomas gave "Matrimonial Sweets" with rich humor, spice and spirit.

"Little Shaking Quakers," by two girls and one boy, in character costume, was highly amusing and warmly applauded by the large audience.

Miss Nannie Willett's instrumental solo, "Staccato," by C. Bohm, was well rendered and showed faithful work as well as talent by the performer.

"A Box of Monkeys," with Miss Anna May Walker as Mrs. Owdego Jhones, Hattie Hord as Sierra Bengaline, Bettie Dee Cook as Lady Gwinnevere Landpoore, Charles Clark as Edward Ralston, and Harry Dobyns as Chauncey Oglethorpe, was surprisingly well given for amateurs, and while all sustained their parts well, Anna May Walker made a capital Mrs. Owdego Jhones, and Hattie Hord's conception and rendition of the character of "Sierra Bengaline" was spicy and natural and showed the young lady possessed of no mean order of dramatic talent. Bettie Dee Cook, as "Lady Gwinnevere Landpoore," was a typical English girl with all of their hauteur, reserve and contempt for everything American.

The Mexio drill, followed by "Angels of Buena Vista," read by Miss Anna Hord, in pantomime by Misses Mamie and Dee Cook, Wells, Reed, Riley, Walker, Calvert, King, Hall, Daley, Walton, Masteron in the rich and dazzling Mexican dress was beautiful in the extreme.

Miss Frances Reed recited a Populist piece, "Bread," with fine pathos, and gave as an encore the laughable "One Legged Goose."

Miss Florence Robb's instrumental solo, "Annie Laurie," was exquisitely rendered, and the soft, liquid note of the beautiful old melody delighted all true lovers of music.

The delightful entertainment closed with a lovely tableau, "Wights and the Fates," the beauty of which was intensified and rendered weird and almost unearthly by vari-colored incandescent lights.

IN HIS SLEEP.

Arthur Bateman, formerly of Lewisburg, jumps out of a window at Covington.

Arthur Bateman, aged fourteen, a son of Mr. George F. Bateman, formerly of Lewisburg, was seriously injured at Covington Sunday night.

The family resides now at Lexington, and the young man was on a visit to Will Harris, of Covington, when the accident occurred.

The Times Star says: "When the Harris family got up Monday morning they were surprised and startled because of the disappearance of their guest. The fact that his bed had been occupied added to the mystery of his dropping out of sight. It was only after some considerable time after the search commenced that a startling find was made that solved the mystery."

"Under the window of the bed room young Bateman was found in a semi-conscious condition, suffering excruciating pain. He had gotten up while asleep in the night and while completely under the influence of slumber had walked out of the window and fallen to the ground. One of his legs was broken, and he sustained other injuries of a serious nature."

The Covington Post says that the unfortunate young man dreamed some one grabbed him, and in his efforts to escape he sprang from his bed in his sleep and jumped out of the window.

A BIG RAIN.

The Fall Last Night Over Three Inches. Washout on C. and O.

Well, maybe it didn't rain some last night!

Did you hear it? There was very little let up from dark to day-break. When it wasn't coming down in great big drops, it was falling in little bits of drops. Most of the time, however, the downpour was "tremendous."

A few weeks ago when Observer Wicoff reported a full of 1 1-10 inches here, the Weather Bureau officials at Louisville thought it was a big rain. Wonder what they thought this morning when he reported a rainfall of 3 1-5 inches. That's the amount of fall here last night according to the gauge at the station. It was one of the heaviest rainfalls in years.

There was a washout on the C. and O. between Dayton and Bellevue early last night. The engine of the eastbound fast express No. 4 was ditched, but so far as learned no one was injured. The train had to be sent around by way of Paris, Winchester and Mt. Sterling. Repairs were made last night, and trains are on schedule time to-day.

No serious damage was done in this city. Some of the property on East Fourth and at the corner of Fourth and Plum was overflowed, the sewer not being large enough to carry off the water.

So far as learned no especial damage was done in the country except from the washing of the land. The creeks were all out of their banks this morning.

BASE BALL.

No Game Monday. But the Boys Play This Afternoon. Unless it Rains.

Rain prevented the game between the Maysvilles and Lexingtons Monday afternoon.

The teams will cross bats this afternoon, unless it rains again. Go out. A lively game is expected.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. James Wood.

GORDON CLARK, author of "Shylock," on hearing that the Democrats in the New York Stock Exchange had formed a McKinley club, remarked: "It is very appropriate that those Shylocks should oppose Bryan. The Republican party is going to the devil so fast that I soon expect to hear of McKinley clubs being organized in h---l."

Do not fail to take in the evening excursion on steamer Laurance. She leaves her float at 7 o'clock, makes a ten mile run up and down in front of city, returning at 8:30. Nice music. Cool breeze and enjoyable time. Fare 10 cents.

MILLERSBURG THIEVES.

They Were Here Sunday Disposing of Some of the Stolen Property.

One night last week, Mr. C. W. Howard's store at Millersburg was broken into by thieves who secured about \$60 worth of penknives, tobacco and other goods.

Late Sunday Constable Dawson got a tip that a couple of young negroes were in Maysville selling fine penknives at figures that would "paralyze" a bargain store.

Mr. Dawson was satisfied at once that the knives were stolen goods, but he did not know of the robbery at Millersburg, and had heard of no other job.

Monday morning he learned from the editor of the BULLETIN of the job at Millersburg, and at once started in search of the negroes.

The officer, accompanied by one of his sons, got trace of the parties in an hour or so in the West End, and concluded they were making tracks for Ripley. Mr. Dawson boarded the Silver Wave, and headed them off at the east end of Charleston Bottom.

The negroes caught on to the officers' manevvers, however, and fled to the hills. Mr. Dawson chased them for some time, but they were too fleet of foot and made their escape.

"Nub" Jones and "Fogy" are the negroes who are wanted. Jones is a one armed fellow, and served a term in the penitentiary a few years ago for breaking into a store at Lewisburg. "Fogy" is also an ex-convict.

Mr. Howard and the Marshal of Millersburg came down last evening to confer with Constable Dawson about the case. Mr. Dawson has recovered several of the knives that were sold in this city.

MR. SAM. POLLITT will run a bus from Maysville to Ruggles Camp Grounds, Thursday and Friday morning, leaving here at 7 o'clock, to accommodate those who wish to go out to the meeting.

A STATEMENT of the condition of the First National Bank appears to-day. It shows individual deposits of over \$200,000, undivided profits of nearly \$13,000 and loans and discounts of nearly \$400,000.

Our dispatches last week told of the death of Rev. Robert O. Lee and a daughter of Senator Tillman, of South Carolina. They were struck by lightning. Mr. Lee was a brother of Mrs. W. O. Cochrane, of this city, and was a schoolmate of Mr. John Chapin. He was rector of the Episcopal Church at Yorkville.

A SENSATIONAL SUIT

At Greenup, in Which Judge Cole, of This City, Figures as One of the Attorneys.

Last week a sensation was sprung in Greenup by the filing of a suit by Hon. C. F. Bennett and Judge Cole, attorneys for patrons of the Greenup public school, mandamus the school board to hire a legally qualified principal and enjoining them from retaining the present incumbent because of his lack of legal qualifications," says the Ashland News.

"It seems there is a special law requiring the principal of this school to be a college graduate. Two years ago, when there was a vacancy in the principalship, the present incumbent made application, and on being asked for his diploma he frankly admitted that he had none, but intimated his willingness to oblige by getting one. The school board kindly gave him time to secure the needed document. In a few weeks he returned, bringing from Manchester, O., a sheepskin. For a time everything was lovely, but on an ill fated day some wandering hobo from Adams County, stranded in the town, very wickedly and maliciously stabbed at the happiness and prosperity of this good pedagogue by divulging the secret that there was no college at Manchester and pronouncing such a diploma a hoax. From that time the fight was on. Next week it will help to make business for the court and lawyers.

Kentucky has a law providing for the granting of State certificates to aspiring pedagogues, and by the terms of that law the applicant is required to be examined in his own county and to be recommended to the State Board of Examiners by the County Superintendent and County Board of Examiners as the possessor of an indisputably excellent moral character. For some reasons, best known to himself, this pedagogue evaded the law and took the examination in another county. The court is now called upon to decide whether this is a legal certificate or not.

"There are also some matters relating to the Greenup Normal Institute that are to be investigated."

The teacher referred to formerly taught in this county.

THE OPEN AIR CONCERTS.

They Will be Given Hereafter on Wednesday Night—Program For To-morrow Night.

The open air concerts by the Maysville Band at Deiterich's Park will hereafter be given every Wednesday evening if the weather is favorable. This change was made so that the concerts would not conflict with the excursions on the steamer Laurance given on Tuesday and Friday evenings.

The admission is only 10 cents. Children under ten years will be admitted free, when accompanied by their parents.

The grounds are lighted by electric lights now, and you can spend an evening each week very pleasantly now listening to the latest selections of music, and it gives you an opportunity at same time to contribute your mite towards supporting and improving the band.

A choice program will be rendered tomorrow night, as follows:

San Diego March Rollinson
Silver Belts Schreplegret
Der Kladderadatsch Latann
Don't Be Cross Waltz Theo. Tobias
Eulerer Club March Brand
Jolly Night Overture (New) E. Beyr
Sunshine of Paradise Alley De Witte

ABERDEEN, OHIO.

They were over again Sunday afternoon. Miss Mattle Jones spent Sunday with relatives in the county.

Quite a crowd of young folks were here from Ripley Sunday night.

Miss Stella O'Connor, of Solid South, was calling on friends here Monday.

Spirre John M. Stevenson, of Decatur, was in town last Saturday on business.

Art Hudson closed his ice cream parlors early Sunday night on account of running out of cream.

Ollie Sutton left for Vaneburg Sunday to attend the stock sales there and get a few horses for their new livery stable.

Dr. Walters and wife, formerly of this place, now of West Union, passed through here Sunday on their way to Fairmont, Ky.

Shelly Campbell has purchased the drug store at Rome, O., and will locate there. Mr. Campbell's many friends here wish him success.

Our friend Nelse Sutton, of Cincinnati, was here Sunday calling on relatives and friends. He returned on the excursion train Sunday evening.

Miss Joe Davis, accompanied by Ernest and Gertrude Roland, of Greenville, O., arrived Saturday morning on a visit to her mother, Mrs. Davis, of West Third street.

Mr. Hanselman, the Principal-elect of our public schools, was in our city Saturday last. Mr. H. is a perfect gentleman, a good scholar and capable of teaching one of the best schools in the county.

Quite a jolly crowd left this morning for Mineral Springs, and will go to see the famous Serpent Mound while there. The party consisted of Mrs. T. F. Hill, Mrs. A. T. Bowell, Misses Elythe Hill, Gussie Boswell and Katie Simmons and Mr. and Mrs. A. L. Hudson. They did not escape the fire, and the teachers hired for the coming school had the finger of scorn pointed at them in the most scathing terms. He calls the school board an illiterate set. Well, the majority of our citizens do not think so, or they would not have elected them. The board do not think the teachers ignorant or they would not have hired them. This thing of venting his spleen on a few unfeeling individuals is getting monotonous and it is high time he is giving up this rest. Threats of taking the reverend sir to the river were freely indulged in on our streets Monday. Such proceedings as this would be a disgrace to the town. Yet if the gentleman would keep quiet and quit taking his personal troubles to the pulpit it would be much more to his credit and the church would be in better shape.

Nowadays when women are trying to do everything it is not strange that many things are overdone. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep doing until she drops. Working in this way has manifold evils. The most common trouble resulting from overexertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents per bottle at J. James Wood's drug store.

ALARMINGLY LOW.

Treasury Gold Reserve Again Below the Ninety Million Mark.

WASHINGTON, July 21.—The gold reserve went below the ninety million mark yesterday for the first time in many months and at the close of business the actual figure was \$89,761,836, a reduction of \$3,706,900 for the day. Of the withdrawals \$3,038,000 was for export.

Treasury officials look upon this heavy golden drain as entirely abnormal and are confident that it will not continue, at least so heavily. They say that there is nothing in trade conditions to warrant the exports, adding that although exchange is almost a point above the shipping point in normal times, the conditions are such in their judgment as to make it uncertain whether it can be profitable at present. In the absence of Secretary Carlisle, who will not return to the city from his jaunt down the bay until tomorrow, no one can speak authoritatively respecting the probability of another issue of bonds to replenish the reserve in the near future, but the general trend of opinion was that such a thing was not to be expected.

The rumor reached the treasury late in the day that the New York banks had decided to come to the relief of the department and pledge themselves to maintain the reserve at the \$100,000,000 point. There was no official backing to this report, but officials profess to see other hopeful signs even if this promise fails of realization. Among them is the prospect that the demand for money in the west will oblige the New York banks to deposit gold with the treasury in order to obtain the necessary paper. This would add materially to the protection of the gold reserve.

The department has already accumulated in the general balance of \$261,618,393, no less than \$84,286,016 of old legal tender notes and \$35,113,019 in Sherman notes. This leaves the whole amount of legal tender notes outstanding, notes of a kind that can be used under the "endless chain" plan to draw out the treasury gold, at only \$345,000 and very much of this is actively circulating in the course of daily trade. The national banks held of this total \$147,000,000, and so far as the treasury officials know they are not generally lending themselves to the present raid of the reserve.

As to other conditions, the officials are satisfied with the manner in which they have gotten so far through the month of July. This is always a trying month, the beginning of the fiscal year letting loose a lot of appropriations for miscellaneous objects as well as for rivers and harbors and pensions. The payments on account of the latter have amounted so far to \$9,826,000 this month, while the quarterly interest charges on the 4 per cent bonds and others have aggregated \$6,479,000.

The total expenditures for the month have reached \$31,118,000, which leaves a deficit of \$12,091,294, but this is no more than was expected, while encouragement is found in the fact that the receipts have averaged well up a million dollars per diem and that much of this increase is composed of internal revenue receipts, an indication that the whisky in bond has at last been drawn upon.

STRIKERS USE VIOLENCE.

Coal Miners Imported From Illinois Will Be Driven From the Field.

SULLIVAN, Ind., July 21.—The situation among the coal miners of this district is a very serious one. The sheriff is at Starr City, and if all the imported miners from Taylorsville, Ills., are not out of the local field soon, loss of life will probably take place. At Starr City last night there was an unusual amount of excitement. The imported miners were attacked by a crowd of strikers and one of the men was seriously injured. The imported men came to Starr City from Taylorsville, Ills., and arrived Saturday morning. The strikers decided to give them until 6 o'clock a. m. to get back into their state.

The prompt action of Superintendent Campbell of the mine and other citizens in coming to the rescue of the imported with drawn revolvers, it is thought, alone prevented a loss of life. The sheriff was called on for protection and left for Starr City with a number of deputies to protect life and property. He is now on the scene of trouble. It is by no means certain that trouble of a very serious nature can be averted, as more than 300 miners are assembled, all in a high state of excitement. The citizens are beginning to fear that the time is fast approaching when the military will have to be called out to restore peace.

This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents per bottle at J. James Wood's drug store.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

In the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
